

Racoon, Kingsize

Ain't it great I got a lot of cash
My creditcard shines
I'm looking mighty, mighty fine
Supergroove and I'm upperclass
I take a dive in my personal goldmine

I've got my own little goldcard
I spend it all quicker than a kickstart
I look pretty good in make-up
My new clip is gonna get me back on top

Everything's got to be kingsize
I got to make this mine all mine
And everything's got to be kingsize
I got to make this mine

I play the shit that the crowd digs
I play the clown, make a fool out of myself
Anything for attention
I shake my ass, showing my titties
It's been a while since I cared for
Something other than my hardcore ego
Where's my heart
Man I wouldn't know
'cause I turned into one of the musical freakshows

Everything's got to be kingsize
I got to make this mine all mine
And everything's got to be kingsize
I got to make this mine

Oh well, everything's got to be kingsize
I got to make this mine all mine
And everything's got to be kingsize
Yeah, I got to make this mine
