

Rag'n'Bone Man, Alone

Hurry up and find the one
Who makes you feel like you've become complete
Feed the kids and wash their clothes
Be jealous of the life that's out of reach

You've never falt that way inclined
It's taken all the years
To find out your free
Supposedly

All your sisters and your brothers
All have significant others of their own
Must be a thousandtimes
She told ya
That your body's getting older don't you know

Don't that make you feel alone
Don't that make you feel alone
Don't that make you feel alone
Don't that make you feel alone
Whne you're own

....

All your sisters and your brothers
All have significant others of their own
Must be a thousandtimes
She told ya
That your body's getting older don't you know

Don't that make you feel alone
Don't that make you feel alone
Don't that make you feel alone
Don't that make you feel alone
Whne you're own
Don't that make you feel alone
Don't that make you feel alone
Don't that make you feel alone
Don't that make you feel alone
Whne you're own
