Ramoth Gilead, Undo My Paradigm

In the deepest parts of me
Is someone others do not see
Cause they think that I'm someone else
What's hidden is my struggling self
Undo my paradigm

What you see is what you don't get

Refrain
Undo my paradigm
And break these chains
Free my mind

I'm tired of being just a fake
Convictions in me I can't take
I need to be closer to You
Cause You can make me whole and new
Undo my paradigm

God will take away all your pain

Refrain
