

Rancid, Walk Away

I need the comfort
That's in your arms
Squeeze and hold me tight
And keep me warm
I need the passion
That's in your heart
Say you'll never leave
And be apart

So don't walk away
Don't turn your back
If you leave today
My whole world would turn black
So don't walk away
Don't change your mind
It's time you took the chance
And put your hand in mine
So don't walk away

I need the glow
Of your darling face
Accept this crown of love
And live in grace
I need the colors
Painted in your mind
Your beauty and your brilliance
So hard to find

So don't walk away
Don't turn your back
If you leave today
My whole world would turn black
So don't walk away
Don't change your mind
It's time you took the chance
And put your hand in mine
So don't walk away

You are my angel
Please don't be afraid
You are my saving grace
My heart's first aid
So don't walk away

So don't walk away
Don't turn your back
If you leave today
My whole world would turn black
So don't walk away
Don't change your mind
It's time you took the chance
And put your hand in mine
So don't walk away
