Randy Travis, Heroes and Friends (Reprise)

I ain't lived forever, but I've lived enough I've learned to be gentle, and I've learned to be tough I've found only two things that last 'til the end, One is your heroes, the other's your friends

Chorus:

Your heroes will help you find good in yourself Your friends won't foresake you for somebody else They'll both stand beside you through thick and through thin That's how it goes with heroes and friends

I grew up with cowboys I watched on TV My friends and I sometimes pretended to be Years have gone by, but now and again My heart rides the range with my heroes and friends

Repeat chorus
