

Rappin Aly C, Something Comes This Way

Something Comes this Way

When something comes this way
Nothing will be here to stay
When something comes this way
All will appear none other the same

Perhaps a new collectable or maybe a store
Like V-Mart, Tea Tart gonna see it all start
At the new V-Mart
That's right at the new V-Mart
You see through the window a new sale
On outdoor furniture like a trail
You realise your broke you only gotta coke
And that's when something comes this Way

When something comes this way
Nothing will be here to stay
When something comes this way
All will appear none other the same

You walk into a dungeon on RPG
You find the new monster the Killer Bee
Only when you knew it was here to stay
That something was coming your way
You step out and attack with your +6 sword
You play the game too much then you gonna get bored
You kill that killer, you have a thriller
And that's when something comes this Way

When something comes this way
Nothing will be here to stay
When something comes this way
All will appear none other the same

Its coming
Its coming
Its coming
Its coming

Its coming this way
Right now this way
Its coming this way
Its coming this way

Something is coming this way
Yes something is coming this way
Its creeping up to you this way
Its sneaking up to you this way
You find a chill up your spine this way
Your feet shake like they shocked this way
Your heart pounds like thunder this way
And that's when something comes this way

When something comes this way
Nothing will be here to stay
When something comes this way
All will appear none other the same

Take a ride that is going your way
Take a trip that's gonna blow you away
Take care on the ride that is going your way

Take care on the trip that will blow you away
When something comes this way
Nothing will be here to stay
When something comes this way
All will appear none other the same

All will appear none other the same
Coz that's when something comes this way
