

Rappin Aly C, Step Out

Step Out
Come step out
Just step out
Step Out

You hide under your quilt, bunched up and covered
While all that you had before is now devoured
You're being attacked by a velociraptor
You're being over stunned by the dominant factor
But you come out knowing you might be killed
You didn't let that stop you from attack power filled
You stood up tall you didn't cower out
You came out and faced it you took a Step Out

Step Out
Come step out
Just step out
Step Out

Step Out
Come step out
Just step out
Step Out

It's been long since that's ever been done
Standing up to your worst fear is a bum
But you gotta do it it is the only way
The look from your face looks for you're to stay
You stand with pride fearless and tough
Ready to bring it and gonna play rough
You stood up tall you didn't cower out
You came out and faced it you took a Step Out

Step Out
Come step out
Just step out

Step Out

Step Out
Come step out
Just step out
Step Out

You gotta stand up untouchable like
You gotta fight back and face it in the eye
All it takes is fear immunity
You gotta defend your own community
Its tough for you we know it goes a lot
If you shouldn't then you should be corrupt
You stood up tall you didn't cower out
You came out and faced it you took a Step Out

Step Out
Come step out
Just step out
Step Out

Step Out
Come step out
Just step out
Step Out

Steppin Out
Steppin Out
We both gon be stepping out
Yeah we both gon be stepping out

Hip Hop steppin out
Hip Hop steppin out
Take a step out
Come on Step Out
