

Rathergood, We like tha moon

we like the moon
coz it is close to us
we like the moooooon
but not as much as a spoon
coz that's more use for eating soup
and a fork isn't very useful for that
unless it has got many vegetables
and then you might be better off with a
chop-stick
unlike tha moon
it is up in the sky
it's up there very high
as maybe
dirigibles or zeppelins
or lightbulbs
and maybe clouds
and puffins also i think maybe
they go quite high too
maybe not as high as the moon
coz the moon is very high
we like tha moon
tha moon is very useful everyone
everybody like tha moon
because it light up tha sky at night
and it lovely
and it makes the tide go and we like it
but not as much as cheese
we really like cheese we like zeppelins
we really like them
and we like kelp and we like moose
and we like deer and we like marmots
and we like all the funny animals
we really like tha moon
