

# Ray Price, Unloved Unwanted

Unloved unwanted I've never been so blue  
I know that I should leave but I don't want to  
Unloved unwanted is the life I live with you  
I know that I should leave but I don't want to  
You have my name you wear my ring I remember when our love was real  
You're in his arms he has your heart  
Are you happy with the kisses that you steal  
Unloved unwanted I've never been so blue  
I know that I should leave but I don't want to  
[ steel ]  
You have my name...
