

Ray Price, What's Come Over My Baby

Oh what's come over my baby she's not the same as before
What's come over my baby my baby don't need me anymore
Can it be that her old love is back again or has she found someone new
Can it be that she's just grown so tired of me I wonder what our love's gonna do
What's come over my baby she's not the same as before
What's come over my darling my darling don't need me anymore
[ac.guitar]
Can it be that her old love is back again or has she found someone new
Can it be that she's just grown so tired of me I wonder what our love's come into
What's come over my baby she's not the same as before
What's come over my darling my darling don't need me anymore
