

# Red Hot Chili Peppers, The Great Apes

She's a box car  
Rolling by  
Like a black star  
In the sky

She's a failure  
Once or twice  
Like a trailer  
Spinning out upon dizzy ice

Flowers fly  
When we grow old  
Snakes get high  
Or so I'm told

She's an eagle  
Out on the road  
Like my favorite  
Beatle everyone  
Bought and sold

All my love and half my kisses  
Superstar go do the dishes  
I just want the great apes to be free

Come on now you lazy cowboy  
Heads or tails but not right now, boy  
I just want the great apes to be free

She's a rain bird  
On the prowl  
Like an urge to be yourself  
That you won't allow

She's a forest  
That we burned  
Just a blueprint for a life  
That we never learned

Flowers fly  
When we grow old  
Snakes get high  
Or so I'm told

She's a lynch mob  
On the street  
Take another step  
And I will kill the beat

All my love and half my kisses  
Superstar go do the dishes  
I just want the great apes to be free

Come on now you lazy cowboy  
Heads or tails, but not right now, boy  
I just want the great apes to be free

She's a bus stop  
Glockenspiel  
She's a simulation life  
That you thought was real

She's an image  
That we blurred

It's a pixelated panther  
Now let it purr

All my love and half my kisses  
Superstar go do the dishes  
I just want the great apes to be free

Come on now you lazy cowboy  
Heads or tails but not right now, boy  
I just want the great apes to be free

I just want the great apes to be free  
I just want the great apes to be free
