

Refused, Symbols

how come your symbols of freedom only restrict
how come your symbols of pride to me ain't worth nothing
what better way to oppress us than to make us nod in approval
to the limits we created
our freedom - our bill of rights just assured to make us abide
to make us serve their purposes and to serve our time
but I will destroy a system that is built on greed
I will destroy tradition that make us bleed
I will shut down the power of all who lied to me
I will defy their image of what they want me to be
