

# Reggie And The Full Effect, Congratulations Matt

It's what I can't explain  
I find it hard to do  
Know I could remind myself

And when I think I'll wait  
Know it's what I do  
Wish I could remind myself

It's all I've got  
It's all I want for you

Soon you'll look away  
and know your right  
And say that you know

Now I can regret  
All these things I do  
Better that I hide myself

What I want to say  
Everything to you  
Sometimes I just can't find myself

It's all I've got  
It's all I want for you

And soon you'll look away  
And know your right  
And say that you know  
Stay and know tonight  
And say that you know

This life, is life, feels like, its right  
You know I can't explain  
Everything I do  
Just know I'm doing it for you

And when I think I'll wait  
Know its what I do  
And why i'm doing it for you

It's all I've got  
It's all I want for you

And soon you'll look away  
And know your right  
And say that you know

Stay and know tonight  
And say that you know  
Stay and know your mine  
And say that you know

Stay and know your right  
And say that you know

I will run  
What can save me under?  
Stay with me girl
