Reggie And The Full Effect, From Me To You

" Today's your final day" Is what I thought you would say Why fools throw love away Is something i cant say Others just runaway Think that it comes back someday Feels good and looks good and seems like it should Only i know what I wanna do Could be a better way To think of how to stay Feels like a, looks like a, seems like a, knows what is Only you, only it's only you,only you Can't guess just what i do Just know this song is more from me to you
