

Reggie And The Full Effect, Megan Is My Friend

I wrote a letter
To forget her
Forever
Could be the weather
Or just better
Forever
Say'd that you would, baby
Do what you could, baby
I'm still the liar
For desire
I'm on fire
You're still the only
One for me
Can't you see
Say'd that you would, baby
Do what you could, baby
Say you miss, having me to push around
Say you wish, that you'd, put me in the ground
You're never happy with anything I do
I wrote a letter
To forget her
Forever
Say you miss, having me to push around
Say you wish, that you'd, put me in the ground
