

# Reggie And The Full Effect, Thanks For Staying

My friends could say  
that this was fun  
while sickly I'm staring out a window  
I can see this other than chasing  
something that I  
always wanted you to know  
all of this will have to end someday  
the time will come when nobody's leaving  
shut your eyes with me  
again and again  
and think about just what you believe in

I think I understand these thoughts  
(I'm thinking everything's a feeling)  
Lay in bed all day just to be with you  
talk all night while staring at a ceiling  
came up with this off of a notion  
still can't sleep cause of all the stupid motion  
want you with me  
so you can see this  
say it again and know that I mean it

I won't give up on you  
You know that's what I'm sayin'  
Tell me you know its true  
Thank you for always stayin'  
Please say your here  
not far but near  
When I'm away  
Be back one day

My friends still say  
that this is fun  
and I sit here staring out a window  
I can say now  
this is worth the call  
in the morning  
to tell you something you should know  
Don't need a break when its all done  
Doing something that I always dreamed of  
I can say for sure that everything is fine  
when your screaming out to up above

I won't give up on you  
You know that's what I'm sayin'  
Tell me you know its true  
Thank you for always stayin'  
I won't give up on you  
(I won't give up)  
Please go with what I'm saying
