

Remy Zero, I'm Not Afraid

Tonight
we can no longer fight
we can never return to it
once we begin to see
through the eyes up over heaven
would you ever return to me in the end?

i'm not afraid of you at all
if you turned away they will all fall

tonight
we can no longer try
all the time that i cried
i want you again

no one's heard this
no voice resounds
no one's around
i can't believe it
what i have become
no one
its over now

i'm not afraid of you at all
i'm not afraid tonight
all your stars glowing bright
i know i'll reach that light again
again
ooh again
again
