

Repulsion, Radiation Sickness

Radiation overdose - Melting flesh
Life is draining from you - Toxic death

Rotting from the inside out - Flesh turns grey
Inhaling radiation fumes - Lungs decay

Sickness from the radiation makes you lose your mind
Hair falls out, internal bleeding
Virus makes you blind

Radiation burns your flesh - Soon you'll die
Poisoned clouds of toxic rain in the sky

Start to fucking decompose, still alive
Rigor Mortis freezes you, now you die
