

# RH Plus, Come Closer (feat. FRANEK)

My hands are shaking together  
With all the stuff inside my body  
It thrilled my brain like never  
In my head there beats the biggest party

Right now I feel so much better  
When you continue what I started  
Can you say it bit louder  
Cause I still can't believe that you said those words to me

Come closer,  
My thoughts and heart controller  
Composer

And let me hear all your music from the inside  
And let me catch every moment before I miss one

If I took you to heaven  
Then take me now to a different planet  
And if I gave you more than ever  
Then say it again let me hear how you trust in me

Come closer,  
My thoughts and heart controller  
Composer

My heart controller  
Make a plan for me  
My life composer

My life composer  
Make a plan for me  
My heart controller YEAH!

Come closer,  
My thoughts and heart controller  
Composer

And let me hear all your music from the inside  
And let me catch every moment before I miss one

Before I miss...

And let me catch every moment before I miss one

And I let you hear all my music from the inside  
And I let you catch every moment before you miss one
