

# Rhesus, My Phoney Love

i can't breathe anymore, hiding  
in the darkest corner of town  
licking my wounds  
the blinking eyes, malicious  
i'm losing it and i say  
welcome to the show  
i know i know i know you are  
scratching down to the ground  
but don't forget about us now  
not now  
i can't sleep  
leaving, is far from being the smartest move  
i ever made  
and i wish you back and i say  
welcome to the show  
i know i know i know you are  
scratching down to the ground  
but don't forget about us now  
not now  
(i know i know i know you are  
scratching down to the ground  
but don't forget about me now)
