

# Rhubarb, Room For Flying

Settle down  
It's time to make my move  
A sunny smile  
Another day with you  
It's closer now than ever was  
I'm letting go of everything so

[Chorus]  
She's got room for flying  
Captures almost everything she tries for  
She's got room for flying  
Captures your soul, she's around you  
She won't hurt you at all

A troubled mind'  
Is more than I could lose  
And more than once  
It's tried to foil my mood  
It's closer now than ever was  
And still no signs I'm yet to find but

She's got room for flying  
Captures almost everything she tries for  
She's got room for flying  
Captures your soul, she's around you  
She won't hurt you at all

She's got room for flying  
Captures almost everything she tries for  
She's got room for flying  
Captures your soul

She's got room for flying  
Captures almost everything she tries for  
She's got room for flying  
Captures your soul, she's around you  
She won't hurt you at all
