

# Rich Charlie, A Very Special Love Song

Babe, somewhere I know I'm gonna find it Babe  
It'll have my love behind it  
And it will be a symphony of all you mean to me  
A very special love song  
And Babe,  
If there's a way you know I'm gonna say it Babe  
If there's a melody I'll play it and I'll play it through  
Especially for you  
And all the words are true  
A very special love song  
So don't be surprised if your sitting alone  
And you hear it  
'Cause I'm gonna sing it to the whole big lonely world  
So turn your radio way down low and get near it  
And I'll tell the world  
I love you girl  
Babe, if there's an ounce of love  
I'm gonna give it to you Babe  
If there's a breath of life  
I'm gonna live it everyday for you  
And oh the whole night through singing just for you  
A very special love song  
For You
