

# Richard Fleeshman, No Man's Land

Tell me what I've done  
Cause we've only got tonight  
You say there's nothing wrong  
But there's avoidance in your eyes  
I know you like to slow dance  
So lets turn the music on  
We can stand here in the darkness  
And sing imagination songs

Chorus

Come away come away  
Come away oh  
To no man's land  
I'll meet you in the dark  
No man's land  
Silence breaks your heart  
Come away  
Empty conversation  
Gonna fade us into the dawn  
I won't be here tomorrow  
So why act like I'm already gone

Chorus

Come away come away  
Come away oh  
To no man's land  
I'll meet you in the dark  
No man's land  
Silence breaks your heart  
Come away  
I'm so tired of giving evidence  
The more we talk the less the words  
Are making sense  
Come away come away  
Come away oh  
Come away come away  
Come away come away
