Ride the Sky, Make The Spirit Burn

[Limited Edition bonus track] Come to see eternity See the light within the dark Hear evil, see evil I am your dark shadow I'm your mirror though distorted, shattered sevenfold [Chorus] You can't control the fire I can make your spirit burn Come, embrace your deepest fears Find divinity with me, seal your destiny Go beyond insanity [Chorus] You can't control the fire I can make your Spirit Burn We can controll the fire We can reach the spirit world
