

Ring Of Fire, Ring Of Fire

Ring Of Fire

From the shadows of sorcerer's knights
To the wizard with jewels of light
Secret languages runes and spells
Ouroboros is well
From the alchemists immortal gold
To the elves with their powers untold
Magic weapons and armour blest
Will put you to the test
Prophets, sages through the ages

The celestial flame is burning
Ring of fire forever turning
The unquenchable desire
Born of wisdom in the ring of fire

Sword of Odin and Anvari's ring
Slayed the dragon as orpheous signs
As prometheous fire first burned
Gifts of knowledge were learned
Chidambaram inside us will call
Flaming hearts are the center of all
The salori of mystical peace
Makes all ignorance cease
Prophets sages through the ages

The celestial flame is burning
Ring of fire forever turning
The unquenchable desire
Born of wisdom in the ring of fire
