Riverside, The Night Before

Close your eyes Don't be afraid I'm with you This place is safe We found a camp We have supplies They will let us stay the night

Close your eyes I'll tuck you in Mum will sing to make you sleep Don't mind the noise There're just the bombs A part of music for this song

When the night begins to fall You and I In a safety zone The former world shall not return But we'll survive intact Again
