

# Road Trip's Over, In My Hell

We're going different way to hell  
Without break  
Without love and without tears  
You don't kiss me

refren:

Please say something to me  
To make me feel a lot better  
In my hell, in my hell  
We are far too young  
To believe  
It's the end, it's the end  
I try to kill my thoughts before, they try to kill me  
You know what I feel right now

refren:

Please say something to me  
To make me feel a lot better  
In my hell, in my hell  
We are far too young  
To believe  
It's the end, it's the end  
I try to sleep at night  
I have a conflict with my life  
I'm trying to be a the best, I'm sorry!  
I didn't know it's gonna be so  
Everything is finished around  
In my life...

refren:

Please say something to me  
To make me feel a lot better  
In my hell, in my hell  
We are far too young  
To believe  
It's the end, it's the end
