

# Road Trip's Over, My Paradise

Days are going by so slow  
I cannot wait this time  
Everyone pissed my off  
And I don't get it why?  
Maby its the waiting for you since you've faded away  
But why I'm still over here when you are over there?

refren:

No matter what I say  
No matter what I do  
I just wanna feel all right  
Take me to my paradise  
It has been a long time as I saw you here last time  
I didn't think you can go away  
And leave me far behind  
But it's not to late to come back  
And take to me there with you  
Leave these places and all these faces  
And things I used to do

refren:

No matter what I say  
No matter what I do  
I just wanna feel all right  
Take me to my paradise  
I justa wanna be free  
(now we're free)

refren:

No matter what I say  
No matter what I do  
I just wanna feel all right  
Take me to my paradise
