## Road Trip's Over, Romance On The Phone

Are you there? I cannot hear you... The time has come to realize, That everything is said and done All I know she's my romance on the phone Ever since she's gone (Will I ever make it real?) Maybe it's time to forget of our past, But I won't stop thinking of you All I know she's my romance on the phone Ever since she's gone (Will I ever make it real?) Let me hear your voice Don't hang up on the phone I'm calling you one last time Please don't cry And close your eyes I'll keep you in my heart refren: All I know she's my romance on the phone Ever since she's gone (Will I ever make it real?)
