

# Rob Zombie, The ballad of resurrection

Insane Blue at the green man inn  
Cut the lights and pray that you're dead  
Opium dreams through the seven dials  
And feel the pillow over your head  
Rachel hide from Ned the crow  
Keen eye on the peelers  
Experiment 53  
And no scratch for the dealers  
She wants some more  
Sweet Rosa whore  
She wants some more  
Sweet Rosa whore  
I say hell is love  
You say I must suffer  
She's a motherfucker  
Ressurrect me  
I say hell is love  
You say I must suffer  
She's a motherfucker  
Ressurrect me  
Sleep well in your killing bed  
Give a jig and show some life  
Favor for a favor  
Don't seperate the  
Pain from the knife  
All the doctors sing  
You got to suffer for the cure  
As the world fades away  
You wonder where you were  
She wants some more  
Sweet Rosa whore  
She wants some more  
Sweet Rosa whore  
I say hell is love  
You say I must suffer  
She's a motherfucker  
Ressurrect me  
I say hell is love  
You say I must suffer  
She's a motherfucker  
Ressurrect me  
She wants some more  
Sweet Rosa whore  
She wants some more  
Sweet Rosa whore  
I say hell is love  
You say I must suffer  
She's a motherfucker  
Ressurrect me  
I say hell is love  
You say I must suffer  
She's a motherfucker  
Ressurrect me
