Rob Zombie, The Ballad Of Resurrection Joe And

Insane Blue at the green man inn
Cut the lights and pray that you're dead
Opium dreams through the seven dials
And feel the pillow over your head
Rachel hide from Ned the crow
Keen eye on the peelers
Experiment 53
And no scratch for the dealers

She wants some more Sweet Rosa whore She wants some more Sweet Rosa whore I say hell is love You say I must suffer She's a motherfucker Ressurrect me I say hell is love You say I must suffer She's a motherfucker Ressurrect me

Sleep well in your killing bed Give a jig and show some life Favor for a favor Don't seperate the Pain from the knife All the doctors sing You got to suffer for the cure As the world fades away You wonder where you were
