Robbie Williams, Andy Warhol

when i was a young boy
I was frightened all the teachers
I didn't learn nothing
coz I couldn't understand
I am a little too much
and not enough
and all the kids was violent
coz the town was rough

hay babies
it's the 80'
electric blue
pure shock
cooking in the bathroom
you like my shoes?
I like you top
that's rock

we're with Andy Warhol at Studio 54
That's right
When you come down?
You gotta ride the white horse
That's right!
Could go bananas
I'm off this planet
Embrace \madness!
