

# Robert Cichy, Old Times Girl (feat. Ania Dąbrowska)

hey girl  
I need you now  
to pull me another  
and to make my day  
to dance on boulevard  
drive in the car  
always get sure  
... trunk

this things kill ya  
you know it's gonna kill ya!  
cos you don't care  
you know you're the best  
where you are?  
you left this town  
just like the others  
going solo down

all I want is to share with you love  
but I can do it like the old times girl  
all I want is to keep all your secrets inside  
all I want is to share thinks with you  
but nobody's out there  
and the spirits unknown  
how to make a .. with so happy like me

hey girl  
come away with me  
things we had  
no one had like this  
Trippin' and flippin'  
one trip is not enough  
three.....  
throw up this party today  
no one should stay  
just you and me, babe  
where you are?  
you left this town  
just like the others  
going solo down

all I want is to share with you love  
but I can do it like the old times girl  
all I want is to keep all your secrets inside  
all I want is to share thinks with you  
but nobody's out there  
and the spirits unknown  
how to make a .. with so happy like me
