

Robert Plant, One Love

One for love, I can't resist
Two for your pretty brown eyes, crazy like this
Three for the stars around my head
Four for the way you smile, crazy instead
That's why, oh you're all mine

Five for the fire, the power of love
Six for the glory from up above
That's why, oh that's why

It takes a one heart, one love
N-n-now baby love one another
One dream, one kiss
Now come on now baby don't you treat me like this

Seven songs that never change
Eight for the heart of gold, nine for the day
That's why, oh all mine

One heart, just one love
N-n-now baby love one another
One dream, one kiss
Come on now baby don't you treat me like this

That's why, oh, oh that's why
Yes that's why, oh, baby that's why
Ooh yeah, that's why, oh that's why
It's one love, one love, one love, one love
One love, oh
