Robert Plant, One Love

One for love, I can't resist Two for your pretty brown eyes, crazy like this Three for the stars around my head Four for the way you smile, crazy instead That's why, oh you're all mine

Five for the fire, the power of love Six for the glory from up above Thats why, oh that's why

It takes a one heart, one love N-n-now baby love one another One dream, one kiss Now come on now baby don't you treat me like this

Seven songs that never change Eight for the heart of gold, nine for the day That's why, oh all mine

One heart, just one love N-n-now baby love one another One dream, one kiss Come on now baby don't you treat me like this

That's why, oh, oh that's why Yes that's why, oh, baby that's why Ooh yeah, that's why, oh that's why It's one love, one love, one love One love, oh
