

Robin Schulz, SPEECHLESS (FEAT. ERIKA SIR

I remember how it all started
feeling warm though the summer was over
and our little lives
they felt so big then
we're only reaching stars
and I am a big black star
and you said to me

if you love me
then say you love me
and you are mine
hey come on darling
stop the hiding
speak your mind

I loved you
but you left me speechless then
say if you love me
then say you love me
and you are mine

I remember how it all started
feeling warm though the summer was over
and our little lives
they felt so big then
we're only reaching stars
and I am a big black star
and you said to me

if you love me
then say you love me
and you are mine
hey come on darling
stop the hiding
speak your mind

I loved you
but you left me speechless then
say if you love me
then say you love me
and you are mine

you left me SPEECHLESS
