Rock Kills Kid, Back To Life

I have waited for this day To feel I'm fitting in And I have longed to feel this way To be alive again

I came back, back Back to, life I came back, back Back to, life I came back

I made plans to go away And never to return I did not think I'd feel this way But this is what I've learned

And now there's time to think Of someone else, besides myself And now there's time to think Of someone else

I came back...
I came back...
