

# Roger Clyne & The Peacemakers, Maybe We Sh

All our might can't change it at all  
Speed of light is slowing down to a crawl  
And now we find that we'll take flight only when we fall  
Maybe we should fall in Love

The verse and the chorus  
The birds and the bees  
May smite or ignore us despite our pleas  
What is this terrible thing brings us towering to our knees?  
Maybe we should fall in Love

No you  
No me  
Baby only we  
Melt like sugar  
Into black coffee  
Our race is run  
Our chase is done  
No longer may we flee  
Maybe we should fall in Love

So it's official now  
There's nothing we can do  
Now you're a part of me and I'm a part of you  
And we can see how one and one makes more than two  
Maybe we should fall in Love
