Roger Miller, You're My Kingdom

You say that others tempt you and it's hard to turn them down You say that you get lonesome when I'm not around Please remember you're my kingdom and I want to always wear a crown Though temptation's knocking please don't let him in Tell him that it's my arms you long to be in Please remember you're my kingdom and I want to always wear a crown

And tell your heart these times that we're apart
And you're so alone that my love for you goes on and on
Though temptation's knocking...
[ac.guitar]
And tell your heart these times...
