

# Ronan Keating, Emeli Sandé, One Of A Kind

late night  
butterflies  
tomorrow's playing  
playing on my mind  
and I am counting down the seconds

whisker neat  
to tame the nerves  
can't wait to see  
the way they look at you  
answering the question

just say you do

your love is one of a kind  
and I am not alone anymore  
just when I thought I was lost  
I saw your face and my whole life changed  
your love is one of a kind  
even long afar we're gone  
our love will always live on  
will you dance with me as the choir sings  
your love is one of a kind

so dance with me as the choir sings

a fireside  
our favorite wine  
the photographs  
oh the year gone by  
and I wouldn't change a second

right here with you

your love is one of a kind  
and I am not alone anymore  
just when I thought I was lost  
I saw your face and my whole life changed  
your love is one of a kind  
even long afar we're gone  
our love will always live on  
will you dance with me as the choir sings  
your love is one of a kind

so dance with me as the choir sings

look at our son now  
he's wearing your smile  
he's got your beautiful eyes  
if only my mother could see us right now

your love is one of a kind  
and I am not alone anymore  
just when I thought I was lost  
I saw your face and my whole life changed  
your love is one of a kind  
even long afar we're gone  
our love will always live on  
will you dance with me as the choir sings  
your love is one of a kind
