

Roxette, Let Your Heart Dance With Me

It was so easy
To fall in love
It got so simple
To fall in love
You know what i did
I got excited
We were united
And so delighted

It was so easy
To laugh with you
It was so simple
To look at you
You made it possible
By being beautiful
And so incredible
And truly wonderful,

Dance with me
Let your heart dance with me
Dance with me
Let your heart dance with me
Let me see you smile

I might be living
In my car
I might be running
Near and far
When stars can't find me
You know where i'll be
Close to the mystery
The love of you and me

Dance with me
Let your heart dance with me
Dance with me
Let your heart dance with me
Let me see you smile again
Let me see you smile
