

# Roy Orbison, In Time

Lonely and blue, waiting for someone like you  
To come by in time  
This feeling is new, your love came through  
You came along in time

In time to show which way to go  
For the answer to my prayer  
In time to give a reason to live  
And to know you'll always be there

In time, in time  
To know you'll be there in time

In time to show which way to go  
For the answer to my prayer  
In time to give a reason to live  
And to know you'll always be there

In time, in time  
To know you'll be there in time
