Royal Hunt, Running Wild

I'm just a number, I don't know my name. Unknown faces a part of the game. Out in the desert the madness begins, Who's talkin' mercy? We're playin' to win...

Better run around, there's no easy way out, If you loose - take a stand, So do whatever you can - again and again.

Running wild like creature of the night, We're born to run - we never trust the light. Running wild, we're so afraid to try, We're all alone and everyone is blind, Running wild...

You'll start the fire and livin' on a lie, Rats get fat while good men die. They got you running to follow the track, You'll face the trouble with fear on the back...
