

Sabrina Carpenter, It's Finally Christmas

Frost on the bedroom window
Snow falling on the ground
The leaves are gone for winter
But I feel the love all around
And no matter what's underneath the tree
It's the time we share that means the most to me

We've been waiting so long
To decorate the tree, sing holiday songs
It's all around us
It's finally Christmas
We've been waiting all year for mistletoe and good cheer
And now it's all around us
It's finally Christmas

(Ohh)

Cozy by the fire
We've got nowhere to go
The lights are glowing amber
It feels so good to be home
And no matter what's underneath the tree
It's the time we share that means the most to me

We've been waiting so long
To decorate the tree, sing holiday songs
It's all around us
It's finally Christmas
We've been waiting all year for mistletoe and good cheer
And now it's all around us
It's finally Christmas

(Woah)

The slay bells are ringing
The carolers are singing
It's finally Christmas
So many reasons that it's my favorite season

We've been waiting so long
To decorate the tree, sing holiday songs
It's all around us
It's finally Christmas
We've been waiting all year for mistletoe and good cheer
And now it's all around us
It's finally Christmas

(Ohh)

It's finally Christmas
