

# Sabrina Carpenter, Lie For Love

I'm played out, it's late out  
I'm really hoping you don't care  
This pent up momentum  
He's starting to become aware

I had the upper hand  
But I don't, I don't  
I know, I know, I don't  
I had the upper hand  
But I don't, I don't  
I know, I know, I don't

We can't get too romantic  
Too busy running high and low  
I just don't understand it  
Why I lie, why I lie for love  
We can't get too romantic  
Too busy running high and low  
I just don't understand it  
Why I lie, why I lie for love

It's all there, it's not fair  
Where will our hearts be when it's done?  
When night falls, and you don't call  
I'll stay up waiting for the sun

I had the upper hand  
But I don't, I don't  
I know, I know, I don't  
I had the upper hand  
But I don't, I don't  
I know, I know, I don't

We can't get too romantic  
Too busy running high and low  
I just don't understand it  
Why I lie, why I lie for love  
We can't get too romantic  
Too busy running high and low  
I just don't understand it  
Why I lie, why I lie for love

I had the upper hand  
But I, I, I  
I had the upper hand  
But I  
O-oh

We can't get too romantic  
Too busy running high and low  
I just don't understand it  
Why I lie, why I lie for love  
We can't get too romantic  
Too busy running high and low  
I just don't understand it  
Why I lie, why I lie for love
