

# Sabrina Carpenter, Silver Nights

Baby baby  
Baby baby

You're the best present ever,  
Life's a snow globe when we're together  
Like a normal rock will picture  
Baby baby, it's crazy how  
We're walking around this frozen town,  
I'm wrapped up like a bulb  
In your arms, swearing stars  
Bouncing off the snowflakes  
Falling down and decorating all the tender lights  
There's nothing like the silver nights with you!

Streets are clouds, and stores are busy  
Sipping cocoa, I'm just wishing  
There'll be some mistletoe and you might kiss me  
Walking around this frozen town,  
I'm wrapped up like a bulb  
In your arms, swearing stars  
Bouncing off the snowflakes  
Falling down and decorating all the tender lights  
There's nothing like the silver nights with you!

Uuuh uuuh uh uh uh  
Uuuh uuuh uh uh uh  
Uuuh uuuh uh uh uh  
Baby baby  
Baby baby  
(I love the silver nights)  
Baby baby  
(Silver nights)  
Baby baby  
I love these silver nights.

Walking around this frozen town,  
I'm wrapped up like a bulb  
In your arms, swearing stars  
Bouncing off the snowflakes  
Falling down and decorating all the tender lights  
There's nothing like the silver nights,  
Nothing like the silver nights,  
Nothing like the silver nights with you!
