

Sade, Every Word

(Love is what the word was)

I saw a picture
How could you be so careless
How could you have done that to us
And I write this letter
I send it all back to you
And every word you said

[1] - In there every word, oh oh oh oh
How could you have done that to us

You treated me like a stranger
And all the time I was loving you
All your slick moves
They were once innocent moves
I wanted to look up to you
I really trusted you
And every word you said

[Repeat 1]

(Love is what the word was)

[2] - I was loving you like a child
All the time you were smiling
The same smile
I was loving you like a child
I really trusted you

Every word you said
Every word you said
(Love is what the word was)

Every word you said
Every word you said
(Love is what the word was)
(Love is what the word was)

Every word you said
Every word you said

[Repeat 2]

Every word you said
Every word you said
(Love is what the word was)
I send it back to you, yeah
(Love is what the word was)

Every word you said
Every word you said
(Love is what the word was)
I send it all back to you, yeah
(Love is what the word was)
