

# Sam Brown, Once In Your Life

Night falls rain pours just like my tears  
I feel so alone though you're still here  
How long can I live on in your world of dreams  
My love is so strong I feel in my bones  
This was meant to be  
Easy make it easy when you need me  
You know I'll be there

For once in your life believe in me  
Don't think twice won't you just let me be  
Your once in a lifetime oh please  
Open your eyes  
For once in your life

I watch as clouds cross the evening sky  
I stand in the shadows of doubt between  
You and I  
Easy make it easy when you need me  
You know I'll be there

For once in your life believe in me  
Don't think twice won't you just let me be  
Your once in a lifetime oh please  
Open your eyes  
For once in your life
