

# Sam Feldt, Rita Ora, Follow Me

When the days stop hurting and the rain has dried  
I know you're the person I want by my side  
Scared to let my heart go free and dive in blind  
'Cause love and heartbreak, they walk a thin line  
Nobody can love me like you  
But that means you got the power to hurt me too

When I fall in,  
Say you'll follow me  
'Cause I really need  
To know that you'll stick around  
When my walls come down  
Won't be phased by what's underneath

You know I've been hurt  
But I'm learning what love's like with you  
Like with you

When I fall ii  
Say you'll follow me  
Show me how far we can go  
Say you'll follow me  
Say you'll follow me  
Say you'll follow me  
Say you'll follow me

(zwrotka 2)

Nobody can love me like you  
But that means you got the power to hurt me too

When I fall in,  
Say you'll follow me  
'Cause I really need  
To know that you'll stick around  
When my walls come down  
Won't be phased by what's underneath

You know I've been hurt  
But I'm learning what love's like with you  
Like with you

When I fall ii  
Say you'll follow me  
Show me how far we can go  
Say you'll follow me  
Say you'll follow me  
Say you'll follow me  
Say you'll follow me
