

Santigold, Banshee

Come on / 20x

Banshee on my shoulder
And I ain't get no sleep tonight
Say you doing what I told you
And the trouble is that she ain't right
Take her out of my way
Take her out of my way
Don't even hear what she just said
Banshee on my shoulder
And I ain't get no sleep tonight
Say you doing what I told you

Step of the Edge (come on!)
Sweating all out
/2x

Let's be play with fire tonight
Come on
Dancing to the sirens allright
Come on
Ripped I;m heaving a good time
There's nothing than a better day

Staring in the mirror
I think I see you in the light
Hear a whisper to me ...
Now If yoy leave me
I'll be petrified
Take her out of my way
Take her out of my way
Don't even hear what she just said
